

Finding Stud Easily and Accurately

Stud Finder Basic 25 mm/ 35 mm/ 35 mm with Magnet/ 45 mm

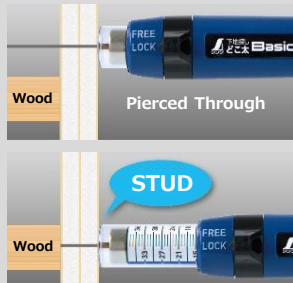

No more loose screws

For installing handrails, curtain rods, or hanging heavy pictures, you need to know where your wall studs are. This stud finder is a great little tool that fits in your tool pouch and can find where the wood or iron (79025 only) stud is.

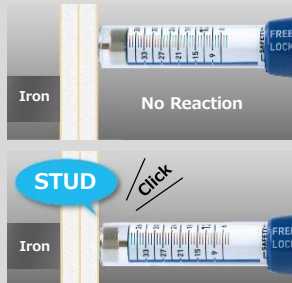

Via Needle

For stud made of wood.

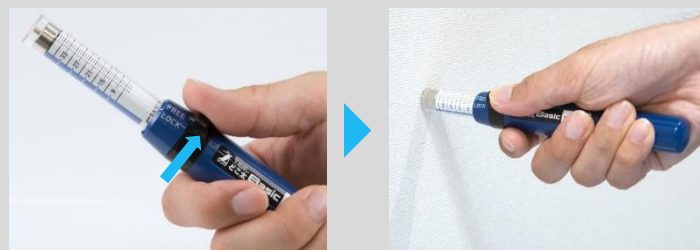

Via Magnet

For stud made of iron.

Large lock switch

The large lock switch could be turned on and off with just one hand, making work smoother and safer.
